RadioActivity January .. April 2017

50 MHz

all: Experimenting with several digital modes like JT65 and MSK144 with very good results.

7 MHz

all: Working all continents with digital mode WSJT / JT65, 50 Watts and dipole antenna. Several new countries reached.

144 MHz

all: nothing, because transceiver has a fault, which I do not find, because it is intermittend.
