

# Extended ZX-Yagi ZX6-7

All element sizes are measured from the centre.  
The centre of each element has a length of 1980mm.

**Diameters:**

- \* The centre tube of all elements measures 22mm of diameter
- \* The tip of each side has a diameter of 18mm

The feed is of a Gamma-Match type and is not described here  
As it belongs to the delivered antenna itself.
